MOVING AND GROWING DAY

We are working with the children this year to promote healthy eating and to educate them about where food comes from and how it is grown. Next week each class will be beginning to plan out our growing areas and discussing foods that can be grown.

If you would like to support us with this in the future, we welcome parents to help the children in class with planting, donating plants and seeds or growing your own food in your garden.

Please contact your child's class teacher for dates that planting will be taking place or feel free to share any photos of your produce. We would love to see it. Happy growing!
